*The program windows (screenshots) shown within this help file can differ in form and contents from the actual program windows. This can be the case especially when the program version differs from the manual version.*

### Production:

**INELO Polska Sp. z o.o.**

ul. Karpacka 24/U2b  
43-300 Bielsko-Biała  
POLAND  
[www.inelo.pl](http://www.inelo.pl)

### Licence

*(menu: Help)*

- A possibility of transferring the licence based on zip or 7zip archive has been added.

### Program activation

*(menu: Program activation)*

- A new button **Restore licence and database from backup** has been added in the program activation window. This option allows to transfer the licence to a new computer based on the previously created zip or 7 zip archive.

### Speed chart

*(menu: Preview window of data from the digital tachograph / smart tachograph -> Speed chart)*

- On the detailed speed chart, an information on the current speed and acceleration/slowing down has been added for the checkpoints.

### Infringement list

*(menu: Reports -> Infringements and manipulations)*

- A method of determining the MSI for daily drive has been changed - for controls from 23<sup>rd</sup> May 2022. (Daily driving time (150% of the norm), without the need for additional verification of  $\geq 4,5$ h rest at this time).
- A new shortcut **CTRL+E** has been added. It opens the window of adding the infringement description.
- The following infringements have been added to the summary of fines on the infringement report:
  - 45h rest in vehicle,
  - no return to member state of establishment or driver's home country for a 45h rest once every 4 weeks.

### Risk analysis of loss of good repute

*(menu: Reports -> Risk analysis of loss of good repute)*

- The report will include only approved infringements.
- The analysis will include also (after checking this option) the infringements ending or starting in a controlled period (Settings -> Analysis).
