## News

(menu)

- button opening the **News** tab, which presents information from the **INELO Polska** website, was added

## Optimization

- the mechanism for analyzing the weekly rest time was optimized with the following option selected: **allow weekly rest periods after up to 12 days (art. 29 reg. 1073/2009)**

## New Polish Tariff - optimization (Polish version of the program)

(menu: "Settings" -> "Analysis settings" -> Analysis )

- **Show infringements committed before 3 September 2018 according to the old and the new tariff** option was added
- after selecting this option, on the list of infringements (Reports" -> Infringements and manipulations) before 3.09.2018, infringements according to both the old and new tariff are shown
  - entrepreneur penalties that are less favourable will be unapproved and greyed-out by default
  - the option **Show only approved infringements** was added

## Infringements on the weekly and monthly chart

(menu: "Reports" -> "Weekly chart" and "Reports" -> "Monthly chart")

- the following infringements markings were added in the charts:
  - exceeding 60 h in the week
  - exceeding (average) weekly working time of 48 h
  - 10 hours of work at night
  - 6 hours of uninterrupted work

## Start/end country entries - tolerance

(menu: "Settings" -> "Analysis settings" -> "Tolerance")

- The following items were added:
  - **Accept place entry at the beginning up to %1 min. after the actual beginning of daily work period** - default settings: 1 min.

- **Accept place entry at the end up to %1 min. before the actual end of daily work period** - default setting is 1 min.

### Update of selected reports (Czech language version)

(menu: "Reports" -> "Kontrolní seznam ADR" and menu: "Reports" -> "Doklad o provedené technické silniční kontrole ")

- Selected reports were updated
- The name of the report **Technické kontroly 2010 47 ES vozidlo** was changed into **Doklad o provedené technické silniční kontrole**

### The new language version of the program - Macedonian

- a new, Macedonian language version of the program was added TachoScan Control  
(menu: "Settings" -> "Program settings")
- in the language choice, Macedonian (Македонски) was added

### Roadside check - generating violations

(menu: "Reports" -> "Infringements and manipulations")

- default generation of infringements from the period that exceeds the end date of the check (to the last activity saved) was added
  - only for **roadside check**
  - unless during data download the **Save driver card data and digital tachograph data in the controlled period only** option was selected

### Roadside Check Form in the German language version

(Reports ->Roadside Check Form menu)

- **Roadside Check Form** was updated
- the report will be opened in RTF format
- in the report generation window, the option of entering the address that will appear on the report was added

### German Tariff (German language version)

(Settings -> Analysis settings -> Analysis menu)

- The following option is checked by default: **Generate the infringement of exceeding the 6/12x24h period between weekly rests**
